

## 01. LILY FLOWER

Lily flower since you've left

I've left everything where you'd left

This glass of water it talks to me

Its every sip comforts me

I'll be your wet pillow case

When tears are running down your face

I'll be that last drop of tear

When you fight your darkest fear

Lily flower don't you know

Drinking water can be fun sometimes

As you smoke your cigarette and you sip your wine

I'm drinking water and having fun

I hold your hand in your dreams

Swim with you through a sea of tears

I'll be your last cigarette

When your night comes to an end

Sometimes I feel a little lonely  
Sometimes I feel a little down  
But Lily she comes and tries to save me  
When no one else is around

## 02. LOST INNOCENCE

Far away now  
And I might never come home  
But I know my heart belongs to you

Fall asleep now  
Chase a dream of better days  
When awake, it feels pale and grey

And I know I won't see you again  
To cherish you like a long lost friend  
And I miss you my lost innocence  
My nightingale is not here to stay  
She'll sing her song and she'll fly away  
And I'll miss her, and her serenade

Pull away now  
All the strings of hope  
But I know my faith will guide my way

Tell your secrets  
Open windows in your mind

It's just a game

I'm here willing to play

Break a smile

I feel I wanna belong to you

It takes a while

Yes I'm gonna search the truth

If I could only keep you by my side

I would spread my wings

And I would fly

### **03. I FOUND A WAY**

She comes over to me

She sits and talks to me

I don't even care

What she has to say

She really thinks I care

One day I'll dare

To say it her face

I'm sick of her emptiness

I found a way to let her go

That's the thing you need to know

You found a way to disappear

That's the way you deal with fear

Bitter taste of pain  
I've dealt with it my friend  
I'm passing it to you  
As I'm bleeding tears for you

Listen to you heart  
Does it lie to you?  
Or like everyone else  
Tries to fool with you

Come close and you will see  
There's a heart missing in me  
Tell them if they need to know  
Cuz I can't take it anymore

#### **04. Sweet Memories**

Woke up in my bed  
On a sunny day  
I saw a bird singing in the balcony  
She stared at me

Brightened by the sun  
Felt just like a dream  
Dream of a light  
Dream of a beauty

Let me stay with you

Don't run away from me

I wanna reach you

My sweet memories

Let me feel you

Don't hide yourself from me

Don't wanna lose you

My sweet memories

Searching for your face

In this crowded place

Your walls are high

Your light is too bright

It makes me blind

I have come to know

A secret little place

Where I hide

When I lose my strength

I'll give my life, to hold you close once again

I'd lose it all if I could ease your pain

## 05. WAIT

Late at night, I come home

I find you sitting on your own

Oh I wish I could explain

How beautiful you look

Silently approaching you

Gently touching you

Oh I wish I could explain

The kind of pleasure that I gain

Hey, hey, wait

I've got something to say

Take away the pain

It's been years since you've been gone

Pain of losing you carries on

Oh I wish you'd taken away

All the memories with you

What is it you're looking for

That you couldn't find in me?

What is it that I want

That I've lost in everybody else?

## **06. ONE MORE DAY**

It's not every single day

But sometimes I do sit and pray

I pray for better days

Away from this lonesome place

Stay, Stay in Love

When I noticed the tears in your eyes

They came to me as some kind of surprise

I thought about them every day and every night

Girl I'm sorry you're not by my side

But at least now I know

Every tomorrow will bring some more pain

Even if you stay baby, even if you care

It won't be the same, it won't be the same

Once again I find myself

In a position where I've lost myself

But don't you worry I'll be fine

I just need some more time

Stay in Love one more day

I don't really care what comes my way

The past is gone, the future is a secret

Today I'm hoping I'll find my way

## 07. Արագիլ

Ես ոչ անտուն եմ, ոչ էլ տարագիր

Ունեմ հանգրվան, ունեմ օթևան

Ազատ հայրենիք, երջանիկ Երկիր

Երջանիկ, երջանիկ Երկիր

Բարով արագիլ, բարի արագիլ  
Արագիլ գարնան, արագիլ ամռան  
Իմ տան մոտ ապրիր բախտի արագիլ  
Բույն հյուսի ծառին, բարդու կատարին

Իմ բալիկների աստղերն են շողում  
Յույսով, անթառամ վարդերով վառման,  
Վշտերս դառան ժպիտներ շողուն  
Ժպիտներ, ժպիտներ շողուն

#### 08. DON'T BLAME ME

Don't Blame me I'm innocent  
I just happened to be in your way  
If I could change anything  
My mistakes would stay the same

I fall behind so I can see  
My own self from your point of view  
But I guess you were too far to see  
The kind of pain I was going through

Just because I wonder  
It doesn't mean that I'm lost  
Just because you found me here  
Doesn't mean that I'm not

Then again what's the point?

You're still the one I try to avoid

Who am I to decide or say

I would do thing my own way?

Find the words to say

What happened wasn't fair

You cut me open and left me bleeding

Consolation is what we need
